Doctor of Nursing Practice (DNP) 2026-2027 Program of Study

Psychiatric Mental Health Nurse Practitioner (PMHNPR) - Full-Time - Final

The DNP Program of Study is the required curriculum for the specialty. The DNP program curriculum is sequenced to support students' academic trajectories. The program of study lists courses required for every semester. Most DNP courses are only available once a year. Therefore, it is imperative to follow the DNP plan of Study each semester when registering for classes. Students should meet with their faculty advisor minimally once a semester to review their program of study. The student's responsibility is to follow their DNP Program of Study and notify their faculty advisor to request changes to their DNP Program of Study. Changes to the DNP Program of Study may impact the projected graduation date and require approval by the specialty coordinator.

Year -	-1	
Fall Semester		
	Required Immersive Summer Experience (RISE)	
	NURS 600 Advanced Pathophysiology (3 units)	
	NURS 604 Statistics in Evidence-based Practice (3 units)
