## Program Notes

The following are important notes about the Doctor of Nursing Practice Program for all students:

- **Nurse Faculty Loan Recipients:** NFLP recipients should take NURS 602 (Academic Faculty Role: Theory and Application) as a 3 credit elective course. NFLP recipients are also required to take NURS 694 (Teaching Practicum) for 1-6 units. Students will work with the faculty advisor to determine how many units are appropriate relative to the student's prior experience.
- **Course Availability:** Some courses may be offered both fall and spring (such as NURS 501 and NURS 644), and additional electives may be available during the summer terms. Students are encouraged to work with the faculty advisor to research these options, and determine the best plan of study for each individual.

- **Summer Courses:** Courses offered during the summer term may be offered between variable dates. Students are encouraged to review all courses in the University's official schedule for accurate start and end dates. Students may also review the University's official calendar for additional information.
- **Program Milestones:** A complete checklist of all program milestones, including instructions, is available to current students and faculty via Doctoral Commons (University of Arizona D2L).
- **Resident Intensive Summer Experience (RISE):** BSN to DNP students are required to attend the RISE experience at least twice during the program. Students choosing a part-time plan of study should work with the faculty advisor to determine when the student should attend RISE.
- **Clinical Skills Intensive (CSI):** Students are required to attend the CSI experience once during Spring Term 2 when Clinical Management courses begin.
